Dear Brenda,

I was in my health food store because of a flaking skin condition and was given some samples of your skin products, which by the way, work better than anything I have ever tried. People started to remark how good my skin looked.

The skin products were so good I thought I should try the Mega Cleanse and the Joint Renewal.

After 10 years of suffering from rhumitoid arthritis, I can't believe after my first bottle of Joint Renewal and the Mega Cleanse, I already have good results. I had tried others that didn't do anything for the pain that included glucosamine, chondroiton and msm too, but yours worked..

I was on Remicade injections combined with Methotrexate. That treatment stopped working and my body froze up. They next put me on Humira along with the Methotrexate.

I could really tell it was working after a visit on Thanksgiving to my daughters house in the Blue Ridge Mountains. The house is huge and I was having to climb the stairs several times a day.

After the first day I was sure I would be hurting the following day. Again I was amazed, no soreness. That next day I did it again with the same results.

Since I have been home I have gotten out my treadmill and after many years of no exercise, I have started out at ten minutes a day, an impossible feet before the mega cleanse and Joint renewal.

I have cut the Methotrexate in half. I believe that the joint renewal has helped significantly. Nothing else has made that dramatic of a change.

I'm going slowly with the mega cleanse as I have a lot of toxins in my body from all the medications. It is however stiring the toxins up and I am eliminating then slowly.

Thank you so much for your products.

Sincerely Judy Conroy
