Dear Brenda,

I have to let you know how much your product has changed my life. The Mega Cleanse and Mega Cleanse EX I can not live without. What wonderful products. I also have my daughter taking this as well. My son is a Chiropractor and totally loves the idea of his family taking such a wonderful natural product that is good for ones body. I recently started taking the NuSkin. I am 48 and my friends thought I had recently had work done on my face. It had a firm and tight look with my pores minimized and skin dewey. I did not notice the results until I ran out of NuSkin and now see how my skin is now. I look drawn, my menopausal skin is oily and breaking out and I have just ordered 2 bottles and will NEVER run out again. You also sent me some samples of other products that I love and will begin taking. The Mega Nutrition is awesome! Everyone needs this product. I ordered the Microdermabrasion and Skin Drink are wonderful for my skin. Thank you for such wonderful products that actually work and are affordable! Please feel free to give my contact info out to anyone that needs a reference for not only the product but the customer service. I have contacted you several times asking advise on product and you have called me and emailed me personally and provided you time and expertise and your product is shipped so quickly that I barely push send and the product is on my doorstep with useful information and samples of product.
