To whom it may concern,

I wanted to let you know that I feel your products are amazing and here is my story to why I believe this. **I have battled eczema for almost four years now.**

I was always a person who worked out, ate well and took vitamins on a regular basis, so I was baffled as to why I had this skin condition. I went to three different dermatologists and a medical doctor who could not provide me with any answers or solutions for permanent relief to this painful skin condition. I was only able to receive temporary relief with steroids.

I added more Omega 3's in my diet as well as Black Currant Oil and a product called Renew Life with 50 billion active cultures. **I found some minor relief, but it was not cleared up and it was still painful;** I wanted it gone. I learned about your products from my chiropractor's office and I decided to give them a try. **I changed** from my store bought multi-vitamin **to your Mega Nutritional System and from the Renew Life to your Total Digestion Probiotic with Digestive Enzymes.** I added the **Mega-Cleanse, Mega-Cleanse Extra, Nu Born Skin, Dynamic Energy and the Body Lotion with the Neroli** oil because I had read on the internet that Neroli oil was great for the skin for anyone that suffered from eczema. To my amazement, **my eczema was almost gone and it was no longer painful.**

At this point, I had been watching a medical show and they described how Noni juice was great for skin conditions. I decided I would try this product because I still had one small spot of eczema that had not cleared up completely. Listed below is the combination of **what I have found that works for me. Hopefully these products will help them find relief from their eczema issues they are battling like they did with me. I am so relieved to finally have Conquered Eczema!**
