Subject: Thank you

Brenda,

I have been using Clinique skincare for years; when I hit 35 I knew that I should probably change skin care products for my ageing skin. I have tried Arbonne, Mac, Bare Essentials, Strivectin- all to lead me right back to a Clinique product.

I met you at the health store at Lebanon and Preston; you gave me a bag of samples with your products. I have somewhat sensitive skin and was somewhat nervous about using your product. When I came home, I immediately put in the cabinet with all of the other products that I have collected.

I had a business trip scheduled last week, when I was packing my bags I realized that I was out of moisturizer. When I went to the back up stock - I came across your bag. I put the Hydrating Nourisher, Microdermabrasion and the Body Firmer in my bag. The first night I used the Hydrating Nourisher, I fell in love. I decided to check out the Body Firmer; at first the scent was a bit too strong but it grew on me. Now, I am hooked. It smells so clean.

I stopped in and purchased the Hydrating Nourisher and I will be back to purchase additional items in your line-up. Can you tell me what the Skin Drink is? I came across it on your website and wondered what you like about it the most.

Thank you again.
