### **Best of the Best**

Having been a holistic Pain Management Specialist since the 1980's, and I haven't ever seen such a well designed product as this. The herbal combinations are exactly what is needed to address pain. It is the best of the best of this class of herbal supplements. I might add the Joint Renewal is also in a class by itself, and the combination of these two products is amazing!

### **Won't Live Without It**

5 years ago my neck and shoulder pain was so bad I had to return home in the middle of my vacation. I went and had a cortisone shot which relieved it. It was during this time that I started taking the Joint Renewal along with the CurcumaMax. It is this combination that works very well. It minimized my pain and some days I have none. I still go to my chiropractor as well, but feel certain that this has done the trick. I would encourage anyone with osteoarthritis pain to give this a try. Give it a few days to get in your body because it does work.

### **CurcuMax**

I have been using this product for several years I could see a big difference in my ability to recall things quicker, for example names, grocery list etc. I am a 63 year old teacher so I need to stay on my toes! I am very happy with the total benefits of this product, thanks for the peace of mind it gives me. I'm doing a good thing for my body!
