

# EXTREME LASH AND BROW GROWTH SERUM

Skin Drink® created a lash and brow formula that delivers bio-engineered polypeptides, nutrient-rich pure botanical extracts, minerals, vitamins, proteins, and a proprietary combination of amino acids to each hair follicle enhancing growth and strength.

## WHAT IT IS AND HOW IT WORKS

**PROCAPIL** is a natural solution made of ingredients that can be found in citrus and olive trees. It is known to strengthen the hair follicle and prevent hair loss while **boosting hair growth by up to 121%**.

**Oleanolic Acid** - A standardized natural extract from *Olea europaea* (Olive) leaves, that contains a minimum of 80% **oleanolic acid**. The extract has antioxidant, antimicrobial and anti-inflammatory properties. It also has anti-aging effects with its ability to inhibit elastase, which helps to support tissue elasticity.

**Eyebright Extract** - This herb has been used for centuries to reduce inflammation and redness.

**Myristoyl Hexapeptide-16 and Myristoyl Pentapeptide-17** - When these peptides are used in combination, they are known to **significantly stimulate keratin genes**, which are the important structural protein in hair, nails and the outermost layer of the skin. These peptides can convince cells to produce more keratin there by lengthening and increasing dormant lashes and eyebrows.

**Biotinoyl Tripeptide 1** - Provides a positive effect on hair follicles by promoting micro-circulation and reducing follicle atrophy and aging. Biotinoyl Tripeptide-1 is most often used in the treatment of hair loss. Including eyelashes and eyebrows.

**PHYTOCELLTEC SOLAR VITIS™** - Grape stem cells protect against tissue damage and oxidative stress from chronological and light induced aging of the hair follicle and skin cells around it.

SKIN  
DRINK®

## WHAT TO EXPECT AND HOW TO USE IT:

**Patience Prevails!** You will notice tiny new lashes in 2 weeks. In 8 weeks you will see full benefits! Lashes will be longer and brows will be fuller. Just apply the product like an eyeliner a.m. and p.m. Don't skip days. This light serum will not affect application of eye makeup.
