## REVIEWS

by Angela

### You Want this Product!

I have been in the health and wellness industry for over 20 years. I encourage my clients to take this formula because it has everything and more to help the immune system. I have known of several people who tested positive for Covid. They wanted my advice on what to take. I told them to take the maximmuneplus but to increase the dose to 4 twice daily with food. They have recovered completely. No doubt had they began to take this early on they may have avoided it completely. I highly recommend this product.

by Marta

### Has All in One

Great product, has everything that you need to avoid illness. I am in CA and Covid is rampant. I feel protected. I have researched this thoroughly, and this is the best.

by Lidia Reyes

### Great product

My son tested positive for Covid. I gave him 5 capsules per day of the Maximmune product, and he had an elevated temperature for one day. He has been fine ever since! I am so grateful that we found this as you never know what could have happened. My family and I love all of your products.

by Rosa F

### Exposed to Covid

I am so grateful that my family I started taking your Immunity plus 4 weeks ago. We had been exposed to Covid by a dear friend who became very ill. Even though we had close contact with her, we have not gotten sick. I feel strongly that had we not been taking this and the Raw Mega Vitamins, it would be a different story.

### Same as my Doctor Recommended

Excellent products that I would purchase except my Doctor has already prescribed everything that is in your Immunity Defense System. My Doctor has been a certified doctor for years but decided to also become a naturopath. But, it is still nice to know that all these products are available in one bottle. Thanks for staying ahead of the curve!
