

24/7 EXTREME WRINKLE FIX

This advanced formula infuses the delicate skin around your eyes, mouth, and entire face, with the most aggressive trademarked ingredients available. These scientifically developed ingredients provide our skin with the tools it requires to build collagen to increase the integrity and density of our skin to **reduce wrinkles, dark circles and spots.**

WHAT IT IS AND HOW IT WORKS

Ferulic acid is a powerful antioxidant that boosts other antioxidants to destroy free radicals that damage and age our skin.

MELFADE® PF contains highly purified bearberry leaves, a natural source of Arbutin. It fades sun spots, age spots, acne scars, and melasma. In addition, arbutin prevents future freckles and hyperpigmentation from developing as it stops extra production of melanin even after a sun burn.

SYN®-EYE is a powerful combination of tripeptides, hyaluronic acid, D-panthenol, and Dunaliella Salina Extract (a natural source of vitamin B12). When combined, these raw ingredients reduce the appearance of lines and dark circles.

*Reverse Dark
Circles &
Dark Spots.*

PEPHA®-TIGHT is a unique algae based skin tightener. It tightens the skin immediately and at the same time provides a long term effect of strengthening the skins' connective tissue.

ACQUACELL™ is a natural complex combining Watermelon Rind Extract, Lens Esculenta Extract and Apple Extract in an optimized delivery system. Clinical trials show that AcquaCell increased the cell membrane fluidity by 40%.

PhytoCellTec™ Argan and Apple Stem Cells will help not only to accelerate the skins' natural repair process, but to vitalize and protect dermal stem cells to fight wrinkles and loss of firmness right at their source.

MATRIXYL® synthe®6 is a wrinkle filler. It is a deoxygenated lipopeptide, called Palmitoyl-Lysyl-Dioxymethionyl-Lysine. It smooths wrinkles from the inside out.

WHAT TO EXPECT AND HOW TO USE IT:

With the first application you'll notice a plumper, tighter, more clear and radiant look. In 4 -6 weeks, results are astounding. Dark circles around the eyes, dark spots, and lines are noticeably diminished. It just gets better with every day of use. Apply am and pm. Cocktail 24-7 Wrinkle Fix with any of the other Skin Drink® formulas to customize your skin care regime.

24/7 EXTREME WRINKLE FIX REVIEWS

Dark Spots on Cheeks have Lightened

by *Josi*

I Love this! I went to a recent family gathering and had not seen these people for 2-3 years. I received multiple compliments on how young I look. It has only been 30 days but I am blown away by how glowing and just better my skin looks. Especially the lightening of dark spots! I have noticed that a small scar I had has improved in appearance as well! I find this to be more natural and adaptive to my skin than others I have used.

Another Home Run!

by *Beauty by Grace*

It's only been a week and I am loving this! I mix the CBD Glow drops with it and I notice a plumper more hydrated look. Especially around my eyes. Now my concealer goes on really smooth where as before it was more cakey and not as smooth. I am an esthetician and have used many products over the years. So far none are as good as this. Recommended highly.

Great Feed back From Customers

by *Jennifer Sims*

I absolutely love this new product! It is flying out the door of my store, Natures Remedy, here in Denton TX. My ladies are saying they can see a real difference in how good their skin looks. One lady told me she had bought Ferulic acid from another company that was twice as expensive and half as good! We are loving the whole skin line. So happy I found you at the SENPA show!

We Love It!!

by *Helen Rayburn*

I own a health store in Hattiesburg MS. called Vitamins Plus. I must say I absolutely love Skin Drink and the latest addition, 24/7 Wrinkle Fix, is fabulous! My staff and I love it! Thanks for making our job easier by making such wonderful and healthy skin care products for our customers!

Great results

by *Celia Sisman*

I am so happy with all I have ever had from you company, I thought ok I will give this a try. I love it. My lines are less visible and just overall improvement on how my skin looks. If you are thinking of this, I highly recommend it. I was afraid of price but worth every penny.
