Brenda,

I want to let you know what I found about your Dim product.

Every three months I get blood workup because I am now 70 and so I was taking a drug the Doctor prescribed to keep my testosterone at a low, healthy level. But after taking your Dim product it had cut my Estradiol Levels to a point that the Doctor said to cut your prescription in half.

What I most like about Dim is that it frees up the good form of Testosterone while blocking the bad form. Now my Freed Up Form is now very healthy, especially for my age.

I also use your Body Dynamics Internal Cleanse products and your Digestion Enzymes/Probiotics products two to three times a day.

I use them daily because I believe helping your body detox from all the toxins we have been exposed to and the containment food supply. is a major secret to longevity and vibrant health.

Brenda, keep up the good work. You are helping a lot of people with your products and educational seminars.
