Hey Brenda!! We've gone through like 17 tubes of your Extreme Lash & Brow Serum already, can we place an order for like, 20 more? I started using it about 2 weeks ago too so I can talk to all our clients about the product when they ask questions (since I'm front desk lol) and I swear, my circa 1990's over plucked brows are making a real comeback already!! HAH. We also use this in our rooms as a special nourishing treatment for our guests who want to strengthen their lashes to help our extensions retain longer, so it's been great to offer as a take home treatment! Some of our guests really need it to keep their extensions.

anyways thanks again so much, we love the serum and let me know when you have a tracking #! our card should be on file. Thank you again honey!!

With Love and Lashes,
--- Alex
