

Dear Brenda,

6-27-11

I have been using your BBW1 products for 2½ weeks now and I just had to write to let you know how amazing my skin looks. I wish I had taken a "before" photo! I am 41 yrs. old with cystic acne. Every blemish left a scar. I have tried almost everything. Alba, Kiss my face + cbooth. cbooth not only didn't work, it blistered my skin, leaving marks almost as bad as the acne I was trying to get rid of.

In just 2½ weeks of using your products; no new blemishes; my scars have faded by at least 50%; and my entire face has taken on a glow that people have noticed. I tell everyone about your products + what a difference they have made for me.

I can't wait to see the difference in another 2½ weeks!

Thank you for your products + I hope anyone with troubled skin will try it.

Sincerely,  
Mariann Pullam
