Dear Brenda.

I just wanted you to know how much I appreciate these fabulous products.

**My mom has severe RA. After taking the CurcuMaxPlus, she told me she feels so much better and not in as much pain!**

She is adding the Joint Renewal at your suggestion. I am so happy to see her getting relief.

**I have been handing out samples to my ladies and they all are wanting it, so I am ordering 4 more bottles.**

I like the fact that it also slows down aging of the skin, and see that this info is well documented **by 1100 medical studies!**

**I love all of your skin care products and as an esthetician, recognize the ingredients as some of the best offered in our industry, but at affordable prices for my clients.**

I just wanted you to know how much I appreciate these fabulous products.

All the best,

  
Misty
