Dear Brenda,

I want to thank you for your product Mega Cleanse, Internal Cleansing Complex. This product has helped me in so many ways. I started taking Mega Cleanse the second week of January 2006, and I no longer have terrible menstrual cramps, nor the chronic back pain, and have more energy to complete my workout routines. This product is so gentle on my system, and I have had no complications at all. When I have a bowel movement, I can literally feel the toxins eliminate out of my body, and it's like my body is saying, "Ohhhhh", from relief.

I have tried other known cleansing products, but they were harsh on system, gave me digestive problems and other complications. Also, the other products had to many steps and made it hard to continue the cleansing process. Brenda, Mega Cleanse will be a part of my daily dietary supplement that I take, and I look forward in experiencing some of your other great products. May God richly bless you and your company.

Sincerely,

April L McAfee
