February 5, 2006

Dear Brenda:

Just wanted to write a short note to let you know how excited I am about your products. I have been using the Mega-Cleanse and Mega-Cleanse Extra since September 13, 2005. The reason this date is important is because after starting your product I decided I would stop smoking by my 52<sup>nd</sup> birthday, which was October 17, 2005.

I didn't expect your product to assist me with stopping smoking, but they did. In order to accomplish my goal I smoked my last cigarette on October 13, 2005. Well, I knew that your mega-cleanse product assisted with cleaning "all six channels of elimination, which includes the lungs.

Mega-Cleanse and Mega-Cleanse Extra had been working in my system for 1 month and I did not have any nicotine cravings. I have attempted to stop before and the hardest thing about stopping to smoke is to overcome the nicotine cravings.

Well, after stopping all I need was the determination to stop. Wow, what a feeling! No nicotine cravings. I only had to break the physical associations with smoking, the Mega-Cleanse and Mega-Cleanse Extra took care of the rest. If Mega-cleanse and Mega-Cleanse Extra work for the Lung, just imagine how it is working on the other elimination channels.

Thanks Brenda for making such great products that really work!

Sincerely,

Ar-Mitty Blackmon  
President/Owner
