RE: JOINT RENEWAL

To Whom this may Concern;

About 10 years ago I was told I needed a hip replacement. My hips really hurt. I'm a Bible reader. Our Creator knew how painful this world would be in our time called the "last days". That's why he promised us that in the new system, as it says in Revelation 21:4, "And he **will** wipe out every tear from their eyes, and death **will** be no more, neither **will** mourning nor outcry nor **pain** be anymore. The former things have passed away."

I have proof from the Bible this promise **will** be fulfilled. I've never caught our creator in a lie. I so look forward to that time.

Till then the JOINT RENEWAL product I'm using from your company has made it possible for me NOT ONLY not to have a hip replacement but also taking your product lessens the pain immensely. Yes, even stops it at times.

I'm one that has to have proof to believe something. The best way is to see or experience the results for yourself. I live my life waiting for the fulfilled of Rev 21:4. I believe in that prophecy because of the proof I've seen. Pain is so a part of life in this world.

I have seen and experienced positive results from JOINT RENEWAL. I was surprised I waited not even 4 weeks to see the difference this product made. Also I have many friends who notice what it has done for me and they use it. I've learned of other products you have. I ask our local stores to carry your products. But when I can't get them where I'm living I appreciate the fast delivery to my home by you personally.

I met you about ten years ago and started your product. I've not seen you since then. But your company represents the same friendly caring person I met 10 years ago, who cares about peoples health as much if not even more so now than then.

There are too many of your products to name that help my health. But this product I take for my joints from your company is a product I can't understand everyone not taking, because it helps so much with joint pain.

Thanks for all your help,

Carol Ellison
