Subject: Mega Cleanse

Dear Brenda,

I am a personal trainer for a living. I have been using Mega Cleanse and Mega Cleanse Xtra for about 5 years now. Before I used this product, I had chronic constipation problems. I tried everything possible, including Doctors visits and lots of medication. I did intense cleanses. I did colonics and also used several other herbal type products. Nothing has ever worked for me. I have never been able to recommend a good product to my clients... until I found Mega Cleanse. Mega Cleanse has kept me regular on a daily basis and has taken away my constipation problems. It really works. It cleanses daily and has also helped my skin and weight maintenance. It has helped several of my clients as well. I am very thankful for Mega Cleanse and the difference it has made in my daily life! I strongly recommend this product to anybody!
