Dear Brenda

First of all I would like to thank you so much for responding to my request as quickly as you did..I was so frustrated when I went to retrieve my next bottle of Mega Wellness cleanse only to remember that I had given it to my son a while ago when he was running short of the product.

As a young adult I was told by my Physician that keeping your colon clean would give you good health. He wasn't kidding. For years now I have been taking Mega Wellness Cleanse.

About a month ago I had to have surgery due to a herniated disc in my throat. Before the surgery I had gone through a battery of tests including 'Cat scan, X-Rays blood tests and an MRI. What amazed the Doctors and Medical assistants was that the results of the tests made them assume it was from a patient in their 40's. I was asked by so many how was I able to be in such good health and the fact that I have no need for any prescribed medication and how was this to be that I am 69 years old. My answer was Mega Wellness Cleanse. I told them that I take it on a daily basis and that I have been doing so for over 6 years. It has helped me to go from 210 pounds to 124 lbs weight and the energy I have is amazing. My husband actually complains on how fast I even walk. He can't keep up with me in the stores and such.I never have had any constipation or any abdominal problems.Thank goodness for Mega Wellness Cleanse.

Brenda I can't Thank you enough for you and your Body Dynamics business I have never had any problems with orders or payments Thank you again so much for your quick response and have a blessed day
